Subject: FW: RE query re Braun Medical

Alice,

Do you have an email address for Mark Wejksznepa, the Air Quality Program Manager at the NEPADEP office? Carole Dowling, the citizen who contacted me yesterday about the emissions of Braun Medical, wishes to contact him using email, (see her email below) instead of by phone. I don't have Mark's email address.

Ginny

Thanks Ginny.

Could you please forward my email to Mark W and cc me in your email?

I would prefer to correspond with Mark via email instead of the phone.

Thank you,  
Carole Dowling

> Thank you for your inquiry. EPA continues to work with its state partners and facilities to gather more refined information on ethylene oxide emissions and is committed to sharing information to protect public health and the environment. Under the provisions of the Clean Air Act, EPA has delegated authority to the Pennsylvania Department of Environmental Protection (PADEP) which includes implementation of its air program. Because the air program is delegated locally to Pennsylvania, your concerns may best be addressed at PADEP's Northeast Office. Please contact Mark Wejksznepa, the Air Quality Program Manager, at (570) 826-2357.
